PROFILE

Computer Science student at Queen's University Belfast with hands-on experience in C++, Python, Arduino, digital logic and circuit simulation, applied in object-oriented and embedded systems projects. Practical experience in B2B lead generation, client relationship building and private tutoring, plus leadership and teamwork through sports and event management. Seeking a software/technical placement.

CORE SKILLS

Programming: C++ / OOP, Python, Arduino / Embedded C++, Git / GitHub, VS Code
Hardware & Logic: Digital Logic & Boolean Algebra, Truth Tables & Karnaugh Maps, Multisim, LTspice, Circuit Simulation
Professional: Problem Solving, Team Leadership, Communication, Client Relationships

EDUCATION

Queen's University Belfast | **BSc Computer Science** — **Expected graduation: 2029**
Modules: Computer Architecture, Digital Systems & Design, Embedded Systems, Data Structures and Algorithms, Object Oriented Programming, Databases, Software Engineering, Theory of Computation, Introduction to AI & Machine Learning

TECHNICAL PROJECTS

Boolean Expression & Truth Table Simulator | **C++ • OOP**
- Built an object-oriented C++ console application that parses, validates and evaluates Boolean expressions and generates truth tables for the variables used.
- Designed a five-class modular codebase (abstract base class, polymorphic operators, tokeniser, validator) with file I/O to save and load expressions and results.

Digital System Design - Adder Circuit | **Multisim • Digital Logic**
- Designed a combinational circuit adding a 2-bit and 1-bit input, minimised with Karnaugh maps into SOP and POS expressions.
- Simulated unrestricted-gate, NAND-only and NOR-only versions in Multisim, applying De Morgan's theorem and verifying against the truth table.

Embedded Systems Programming - Arduino | **C++ • Arduino**
- Programmed interrupt-driven control, PWM output on an RGB LED, analogue sensing with threshold-based status messages and serial-based user input.

EXPERIENCE

Crew Member | **Five Guys, Belfast** — **Feb 2026 - Jun 2026**
- Delivered fast, friendly service in a high-volume restaurant, preparing orders accurately during peak periods while following food safety standards.
- Worked in a small shift team to keep service on schedule, alongside full-time university study.

Private Tutor | **Self-Employed, Lahore** — **Jun 2023 - Aug 2025**
- Delivered personalised sessions and tracked progress; tutored 2 students to A grades in O-Level Mathematics and 1 in Chemistry, and another to a 1490 SAT score.

Marketing Network Development | **Aluvies Printers, Lahore** — **Sep 2024 - Aug 2025**
- Built and maintained relationships with textile businesses, identifying opportunities for labels, packaging and shopping bags and following up with prospective clients.

B2B Lead Generation Representative | **Self-Employed, Lahore** — **Jun 2023 - Sep 2024**
- Conducted outbound B2B outreach, qualified prospects and maintained accurate records to support appointment setting and sales conversion.

LEADERSHIP, ACHIEVEMENTS & COMMUNITY

Leadership: Sports President, ISL (2024-25) • Event Head, Olympus 2024 • Event Head, Markhor Super League / Abdalian Futsal Tournament (2022-24) • Sports President, LACAS JT (2022-23)
Achievements: Captained school teams to gold/silver finishes; Best Goalkeeper at IB Games; Sports Excellence Award 2023; LCA Animation Winner
Community: Volunteer with Falahi Taun and Sadaay-e-Umeed; Alkhidmat flood relief; Pakistan Youth Foundation debate management
Languages: English, Urdu
